

Career Transition Seminar
Job Search Essentials

Job Search Essentials

For many professionals, a job search is an exciting opportunity to explore new employment options, rebalance priorities, connect with industry leaders, and advance their careers. For others, the process is more unnatural and uncertain. Finding a new job will test their ability to market themselves in a highly competitive employment atmosphere and potentially redefine their professional identity.

Job Search Essentials offers professionals in career transition a structured program to help prepare for, launch, and manage a self-directed job search campaign. Three concentrated sessions put “best practices” theory into action in a collaborative workgroup forum.

Program topics and takeaways:

- Craft Your Story and Value Proposition
- Refine Your Resume
- Develop an Actionable Marketing Strategy
- Form a Personal Advisory Team
- Integrate New Networking Channels
- Prepare For Successful Interviews
- Learn Techniques to Negotiate Compensation

Each session is facilitated by an experienced senior consultant and includes discussion, exercises, and take-home assignments.

Session Schedule: Curriculum is delivered in (3) three two-hour sessions.

Group Size: Up to (10) ten participants.

Location: Conference room (Malvern, PA); Employer location (Optional); Webinar (Optional)

Register online at <http://www.managementpathways.com>

\$495.00 per individual (includes three sessions and program materials). For more information on this program, or for general inquiries, please contact us directly:
